REMINDER:	MATERIAL: Marble is a delicate natural stone with very high variation in color/shade/pattern.
	CLEANING: DO use only warm soapy water & a soft cloth. DO NOT use abrasive cleaning agents. This will scratch the stone and the protective sealant which serves to keep the marble water resistant. Doing this will also lead to dulling of the polished surface and will also make the material prone to staining.
	MAINTENANCE: Marble should be sealed at least once a year with a suitable sealant from a reputable brand.
	All information stated above are solely for reference only and should be based on the actual items/samples. Dimensions and specifications are subject to change without prior notice.
